

Speech Pathology Group & Rehab Services of CT

## Job Opening - BCBA

\*Full time and/or Part-time available; must have availability for some or all afternoons\*

Are you a BCBA looking for an opportunity to help develop the ABA program of a growing private practice? Are you looking for an opportunity to have your input heard in the clinical practices of a company? Do you want to be an integral part of a team that puts its staff and families first? Are you a great mentor with remarkable leadership skills? Do you want to work but also need some time to focus on your personal life? If YES, then WE WANT YOU!

The Speech Pathology Group (SPGCT), located in Shelton, Connecticut is a private practice seeking a full-time BCBA to join its ABA team. We provide clinic-based and in-home services (around the Shelton area). Our mission and philosophy align itself with trauma-informed behavioral interventions, specifically the Practical Functional Assessment and Skills Based Treatment! We are ready and willing to train the right candidates in this process. In addition to ABA, SPGCT offers families a broad scope of services- speech, occupational, and physical therapy services! You will get to be a part of a multi-disciplinary team with many opportunities for collaboration.

Our ideal candidate is an enthusiastic professional with an entrepreneurial spirit looking to take their career to the next level. As a BCBA you will:

- Help develop and facilitate mentoring and supervision programs for master's level RBTs through an apprenticeship model.
- Provide training and continuous evaluation of staff performance.
- Collaborate and co-treat with other professionals within the practice to help provide a well-rounded team approach.
- Collaborating with the clinical and management team to provide best outcomes for the clients, families, and company.
- Create and monitor data collection protocols
- Participate in and conduct team meetings in order to update clinicians and families on client treatment plans
- Conduct initial assessments and maintain a caseload of clients and a team of staff
- Engage in continuous professional development efforts to learn, maintain, and train new evidence-based, behavior analytic strategies.

- Establish and maintain ecologically relevant behavioral repertoires including compassionate, humble, flexible, creative, and progressive practices.

**Qualifications:**

- BCBA Certification (in addition, CT licensure preferred)
- Master's degree in Applied Behavioral Analysis
- 2 years minimum experience preferred working as a behavior supervisor designing ABA programs for children as well as training parents, therapists, etc.
- Focus on pediatrics (early ages preferred)

**Location:**

- Clinic: Shelton, Connecticut (Right of Route 8)
- In-home services- along rt 8 (Stratford to Waterbury) and across 84 (Southbury to Southington) all within close proximity to our Shelton clinic location.

**Benefits:**

- 401(k)
- Flexible schedule
- Health insurance
- Paid time off
- Professional development assistance
- Referral program
- Wellness Stipend

**Salary:**

Varies based on experience and time in the field
